

R-CHIVE

Imaging a future for the past

Summer 2019 Workshop

Spectral Imaging in Cultural Heritage

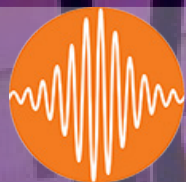

July 22nd to July 24, 2019

Rochester Institute of Technology
University of Rochester

Join Rochester Cultural Heritage Imaging, Visualization, and Education (R-CHIVE) for a in-depth, hands-on experience in novel imaging and digitization techniques to study historical objects of known or unknown significance.

The 3-day workshop will be led by university researchers, students, humanists, curators, and scholars, and will explore:

- *Spectral imaging modules and techniques*
- *Understanding spectral imaging*
- *Basic and advanced image processing*
- *Essentials of manuscript materials and inks*
- *Future of education and field of study*
